## ABSTRACT

The Impact of Socially Responsible Investment on Stock Return & Its Relationship with Stock Performance

By

Alam Sutera

This paper examines about the effect of inclusivity by proxy of SRI KEHATI towards financial performance. The relationship is analyzed by looking at the performance with the ratio of return on asset and return on equity. By using purposive sampling in this study, the relationship is conducted with regression analysis. By using the independent variables of SRI KEHATI, via the controlling variables of Firm Size, Equity, Net Income and Gross Domestic Product, and connect it to dependent variables of Return on Asset and Return on Equity to further estimate the statistical result, SRI KEHATI does not have significant impact on financial performance, although it does have positive relation even if it's not that effective or direct.

*Keywords: Inclusivity, SRI KEHATI, Firm Size, Equity, Net Income, Gross Domestic Product, Return on Asset, Return on Equity*

## DEDICATION

I dedicate this work for Indonesia, my parents, my university, and my future.

## ACKNOWLEDGEMENTS

First, I would like to express my thanks to Allah SWT for giving me the will to finish my study.

Second, I would like to thank both of my parents and my sister for the encouragement during the entire work on the research.

Thirdly, I would like to thank my supervisor, Ms. Margaretha Lingga, for the valuable advices and supervision in assisting me to have this work accomplished to this end.

Finally, I am thankful to Mr. Yaya Hidayana, Mr. Hendy Fakhruhin, Ms. Susiyanti for helping in number-crunching, and Mr. James Hunt for helping in proofreading as well as my friends for all their support and keeping me in line to focus on the work.
