

## GLOSSARIES

**Instructional Design** : Systematic process to develop education and training program

**Module** : A set of organized learning opportunities around a well-topic

**ADDIE** : Analyze, Design, Develop, Implementation, Evaluation. It is used to develop a teaching material such as module

**Module** : A set of organized learning opportunities around a well-defined topic. It is a part of teaching material. The lowest quality grade of tiles in a ceramic industry

**Learning Activities** : Activities that engage students in active, constructive and cooperative ways
