ABSTRACT

FRAMING ANALYSIS OF COVID-19 VACCINATION
ONLINE NEWS COVERAGE ON DEUTSCHE WELLE NEWS

By

Dr. phil. Deborah Simorangkir, BA., MS, Advisor

SWISS GERMAN UNIVERSITY

The purpose of this research is to analyze the framing of COVID-19 vaccination online news coverage in Deutsche Welle News, as Germany has shown leading in handling the coronavirus pandemic. The role of media is essential in shaping the people's minds throughout an issue, especially during this time of pandemic where people need information based on the facts. In this qualitative research, a framing analysis method by Robert N. Entman is applied to explain how Deutsche Welle News frames vaccination news by defining problems, causes, moral judgement, and treatment recommendation, which could expand more comprehensive to the news frames. Thus, based on Entman's framing analysis method, the result has shown Deutsche Welle News frames vaccines delivery, lack of vaccine doses and scepticism as to the main problem in general and the cause includes laboratory facility upgrades, only a few vaccines has been approved, and temperature control for vaccines delivery. Therefore, the governments especially European governments demanded the developer to solve the problem while the governments also have strategy to help solve the problem.

Keywords: Coronavirus, COVID-19, Vaccine, Framing, Framing Analysis

DEDICATION

This research is dedicated to my beloved mom (may Allah grant her Jannah),
her wisdom inspires me to keep rising and move forward in life.

ACKNOWLEDGEMENTS

First and foremost, praises and blessings to Allah for the health He has given me to complete this research to complete my undergraduate study.

I would like to express my deep and sincere gratitude to my advisor, Mrs. Deborah Simorangkir for her support, knowledge, and guidance. This research won't be possible without her.

Besides my advisor, I would like to thank all my Communication and Public Relations lecturers who have given me knowledge, insightful comments, and encouragement.

I can't thank my parents and brother enough for their love, prayers, and being my main supporter throughout my life, which led me to do better things.

To my partner, Aurélien, thank you for the unconditional support, love, and faith that encourages me to complete this research with my best effort.

I am thankful to my amazing friends, Sarah, Enis, Rifka, Dini, and others that I can't mention their kindness one by one, who have always been very caring and supportive.

Lastly, shout out to my Communication and Public Relations classmates 2017 for the joy, laughter, ups and downs we experienced together.
