GLOSSARY

Ontego Designer - A drag-and-drop flowchart app builder created by Commsult to create customized Ontego Projects

Ontego Project - Projects that are created by the Ontego Designer or Ontego SDK

Ontego4SAP Cockpit Dashboard - Commsult client's dashboard where they can track the status of their application such as App Inspector, Device and License Management, and Versioning and Release Notes

Ontego SDK - Ontego SDK is a software development kit created by Commsult to create Ontego Projects efficiently and with up-to-date technology

SDK (Software Development Kit) - Software Development Kit is a set of tools used by developers to develop and maintain an application

Library - A collection of resources used by computer programs, including configuration data, documentation, templates, pre-written code and etc.

Package – A directory of collection of modules required for a software product.

Library Package – Pre-built code modules that developers can use in their applications to perform specific functions or tasks, usually includes several different pre-coded components.

API (Application Programming Interface) - An application programming interface (API) is a type of software interface, a way for two or more computer programs to communicate with each other

Flutter - An open-source framework and software development kit developed by Google to enable the development of multi-platform, natively-compiled applications from a single codebase

Dart - An open-source, object-oriented programming language developed by Google used to develop user interfaces (UI) for multiplatform (iOS, Android, web, etc)

WebServlet - Define a servlet component in a web application

Application Rendering - Application rendering means creating a Flutter application by developing, compiling, and running it on the Flutter Engine implementing Flutter's core libraries.

Hot Reload - The hot reloading feature allows you to inject newly edited files at runtime without stopping the app. This way, you do not lose the state of the app that is especially useful when editing the UI.

CURRICULUM VITAE

Summary

Versatile software engineer works well both as part of team and independently. Highly educated with capability to deliver on key project milestones. Graduated from bilingual schools and studied with English speaking classes in University. Worked on multiple software development projects. Able to communicate using English on daily basis about requirements, solving problems, and helping troubleshoots.

Experience

Michael Buschner | Potsdam, Germany Application Programmer 03/2022 - 08/2022 ● Wrote clean and dynamic code, leveraging expertise across multiple programming languages to meet diverse requirements. ● Developed testable software using agile methodologies to create high-quality deliverables ● Built and maintained code libraries used to produce consistent and reliable code.

Dr. Charles Lim, BSc., MSc., CCSE, CTIA, CHFI, EDR | Tangerang, Indonesia Research Assistant 07/2021 - 08/2022 ● Monitored research activities to complete projects within stipulated timeframes and budget constraints. ● Participated in planning of research projects in collaboration with faculty supervisors and other research assistants. ● Met with faculty supervisor on regular basis to maintain ongoing communication regarding quality of performance.

Skills

● Programming skills ● Multilingual ● Application Development ● Problem-solving ● Communication skills ● Troubleshooting

Education

Swiss German University | Alam Sutera, Indonesia Bachelor of Engineering in Information Technology 2023

Penabur Highschool | Gading Serpong, Indonesia Certificate of Higher Education in Live Sciences 2019 ● Member of English Club ● Full marks on English National Exam Academic Achievement
