SWISS GERMAN UNIVERSITY

German Automotive Manufacturing Company is an international automotive company that has been established since the 19th century in Germany. The company is renowned for making high quality automotive cars that has been distributed to all parts of the world. In 1970s, German Automotive Manufacturing Company have the first manufacturing plant in Wanaherang Bogor which is around 50 km from Jakarta. The manufacturing plant that located in Wanaherang, Bogor is mostly focusing on assembly vehicle parts that came from Stuttgart, Germany and has been certified and declared by TUV-Rheinland as an Eco-Industry.

The situation that the factory area currently has inside the factory is that there is no proper production training center for every types of worker in the factory. These can lead to many problems such as the learning curve of the workers during in the factory area are longer than it needs to be. Therefore, production training center for the German Automotive Manufacturing Company are very much needed in order to give learning time for new workers, and also refreshment training for existing workers.

Keywords: Training Handbooks, E-Learning, ADDIE Model, Learning Process, Training Methods

DEDICATION

I dedicate the thesis
To God who gave me spiritual wisdom
To my parents for their utmost support
To my professors and lectures who taught me many knowledges
And to all my friends and colleagues who went through tough times with me

SWISS GERMAN UNIVERSITY

ACKNOWLEDGEMENTS

First and foremost, the author would like to give his utmost gratitude to Allah SWT, who are always give me with help and blessing with completing the thesis. Without God's blessing, the author will not complete the thesis.

The author also expresses his profound gratitude towards Ir. Setijo Awibowo, Dr. Tanika Dewi Sofianti, S.T, MT, and Wahyu Ricardo S.T, who their role as the author's supervisors will not be forgotten. Their endless support and motivation have guided the author to finish the thesis.

Nevertheless, the author would like to express his biggest gratitude towards his mother, Ir. Dias Nurrahmi Widiastuti, father, Agus Wahyu Widodo, S.E, and grandfather, Ir. Slamet Widodo who always give the author their kindness to drive the author to make the thesis as best as possible.

Furthermore, the author would like to mention his thankful towards Audrelia Maretha Putri S. Ked, who always gave the author many encouragement and support to give the author the motivation to work his hard to complete the thesis. The author also gives his many thanks to Rezky Dwimarsya S.T, B. Eng and Andreas who helped the author throughout the thesis development for the past six months.

The author also would like to give his thanks to all of the author's friends from Industrial Engineering SGU 2015 who went through this journey together with the author. The four years of college experience cannot be more fulfilled without the friends that the author have throughout college life.

Last but not least, the author would like to say his thanks to Hakim, Aldi, Haikel, Fikri, Arel, and others who are not mentioned. Thank you for giving the author the motivation and strength to inspire the author to finish the thesis.

TABLE OF CONTENTS

STATEMENT BY THE AUTHOR.....	2
ABSTRACT.....	3
DEDICATION.....	5
ACKNOWLEDGEMENTS.....	6
TABLE OF CONTENTS.....	7
LIST OF FIGURES.....	10
LIST OF TABLES.....	11
CHAPTER 1 – INTRODUCTION.....	12
1.1. Background.....	12
1.2. Research Problem.....	13
1.3. Research Objectives.....	13
1.4. Research Limitation.....	13
1.5. Thesis Structure.....	13
CHAPTER 2 – LITERATURE REVIEW.....	15
2.1 Change Management.....	15
2.2 Training and Skills Development.....	15
2.2.2. On-the-job Training.....	16
2.2.3. Off-the-job Training.....	17
2.3 Training Process.....	20
2.3.1. Analysis Phase.....	21
2.3.2. Design Phase.....	23
2.3.3. Development Phase.....	24
2.3.4. Implementation Phase.....	26
2.3.5. Evaluation Phase.....	27
2.4 Learning Outcomes.....	27
2.5 E-Learning.....	29

2.6	Knowledge Management.....	30
2.7	Concept of Knowledge in Knowledge Management.....	31
2.8	The SECI Model of Knowledge	32
2.9	Likert Scale.....	33
CHAPTER 3– RESEARCH METHODOLOGY		36
3.1.	Analysis	37
3.2.	Design.....	37
3.3.	Development.....	38
3.3.1.	Training Center Materials	39
3.3.2.	Training Infrastructure	39
3.4.	Implementation.....	39
3.5.	Evaluation.....	40
3.5.1.	Result and Discussion	40
3.5.2.	Conclusion and Recommendation.....	40
CHAPTER 4– RESULT AND DISCUSSION		41
4.1.	Company Profile.....	41
4.2.	Analysis	41
4.2.1.	Problem Identification.....	42
4.2.2.	Literature Review	42
4.2.3.	Define Solution.....	42
4.3.	Design.....	43
4.3.1.	Identify the Process of Assembly Vehicle	43
4.3.2.	Design Courses for Each Processes.....	46
4.4.	Development.....	49
4.4.1.	Training Center Materials	49
4.4.2.	Training Center Infrastructure.....	55
4.5.	Implementation.....	61
4.5.1.	Pre-Test	61

4.5.2. Theoretical Training.....	63
4.5.3. Practical Training.....	64
4.5.4. Post-Test.....	64
4.6. Evaluation.....	66
4.6.1. Respondents.....	66
4.6.2. Calculation using Likert Scale.....	67
CHAPTER 5– CONCLUSION AND RECOMMENDATION.....	76
5.1. Conclusion.....	76
5.2. Recommendation.....	77
REFERENCES.....	78
