If IT just in technology area the implementation it is not so difficult as long as either the company have the expert or have the budget to hire the expert. The challenge arose when there are questions about the IT capability align with company business strategy. Because the company as a whole package consist all the resources that work together to achieve the intended goals. The company resources could be considered as company capability to run the business and to win the business competition. This capability comprises business principles, business process, organization structure, company culture, information system, technology and the skill of its employee. Enterprise Architecture is one of the well-known and widely used model to defined of how the relationship among company capabilities could support each other's to achieve company business strategy.

The capability to manage finance in a company is paramount because a business is not a business without money involved in it and a business cannot run without sufficient working capital. This research is to defined the IT capabilities required that aligned and fit with financial management strategy in MRO Industry through qualitative research methodology using enterprise architecture process.

*Keywords: Enterprise Architecture (EA), IT Strategic Planning*

## **DEDICATION**

I dedicate this thesis for my beloved family and my parents who always support me.

## ACKNOWLEDGEMENTS

I am grateful to the God who has bestowed upon me the pleasure of completing this thesis. My parents that always never give up to remind me to accomplish my thesis to get my Master Degree. My wife and my daughter that always be patient because I must spend a lot of time to finish the thesis on time. I also wish to thank and appreciate to my Thesis Advisors (Mr. Dr. Ir. Mohammad Amin Soetomo, M.Sc and Mr. Ir. Heru Purnomo Ipung, M. Eng. and) who was particularly helpful in guiding me to completing this thesis.

And also thanks to my friends in the office that support me regarding the data that we use in this thesis.

Finally, I would like to thank my classmate Mr. Herry Ahmadi to help and support each other to finish this thesis on time.
